The following chart of **BUFFER ZONE** information and chemicals effected by the **BUFFER ZONE** restrictions is provided for your convenience. Please contact us if you have any questions.

	BUFFER ZONE	BUFFER ZONE	BUFFER ZONE	
				
	School / Day Care	Health Care	Residential	
	AERIAL APPLICATION			
	Highly Toxic (liquid)	¼ mile	400 feet	100 feet
Highly Toxic (dust)	¼ mile	400 feet	300 feet	
*Odoriferous	¼ mile	¼ mile	¼ mile	
	GROUND APPLICATION			
	Highly Toxic (liquid)	¼ mile	400 feet	50 feet
	Highly Toxic (dust)	¼ mile	400 feet	300 feet
	*Odoriferous	¼ mile	¼ mile	¼ mile

BUFFER ZONES APPLY TO HIGHLY TOXIC  AND *ODORIFEROUS PESTICIDES

*A specific listing of odoriferous pesticides has not been established

Arizona registered pesticides can be found at:

www.azda.gov/ESD/esd.htm

Then click on: "List of Licenses, Permits and Certifications"

**Highly toxic pesticides have both the skull & crossbones
 and the signal word "Danger" on the front label**

ARIZONA REVISED STATUTES, TITLE 3, CHAPTER 2, ARTICLE 6
Effective August 13, 1986

3-365. Buffer zones

A. The odoriferous pesticides profenofos, sulprofos, def and merphos and other pesticides with similar odoriferous characteristics shall not be applied within one-fourth mile of a school, a day care center, a health care institution or at least twenty-five residences adjoining the field to be sprayed, except by soil injection.

B. Highly toxic pesticides or paraquat shall not be applied within four hundred feet of a health care institution, except by soil injection.

C. Highly toxic pesticides or paraquat shall not be applied in liquid form, except by soil injection, within one hundred feet by aircraft or within fifty feet by ground equipment of at least twenty-five residences adjoining the field to be sprayed. Highly toxic pesticides shall not be applied in dust form by aircraft within three hundred feet of at least twenty-five residences adjoining the field to be sprayed.

D. Highly toxic pesticides and paraquat shall not be applied within one-fourth mile of schools or day care centers. However, highly toxic pesticides and paraquat may be applied within one-fourth mile of schools and day care centers unless authorized activities at the school or day care center are scheduled to occur before the reentry time period assigned to the pesticide by provisions of the product label elapses. A responsible individual at a school or a day care center shall be notified of the application of pesticides, other than highly toxic pesticides or paraquat, by aircraft during daylight hours.

E. Nothing in this section permits the application of pesticide in such a way as to cause drift within the grounds of a residence, school, health care institution or day care center, but compliance with this section and the requirements of the pesticide label establishes a presumption of compliance with this subsection.

F. For the purposes of this section, distances shall be measured from the property boundary of a school, residence, day care center or health care institution closest to the field to be sprayed to the area of the field that is to be sprayed.
