

Pollinator Protection Resources for Extension Educators

By steve lodefink

Washington State Department of Agriculture and other state lead agencies have brochures available.

Other state agencies have developed educational materials, such as the Washington State Noxious Weed Control Board.

For Invertebrate Conservation

About Programs Resources News Invertebrates Our Work Get Involved

7 Native Hawaiian Pollinators Proposed as Endangered Species

Proposed in response to petitions from Xerces, when the rule is finalized, these will be the first bees to gain federal protection in the U.S.

Protecting the Life that Sustains Us

The Xerces Society is a nonprofit organization that protects wildlife through the conservation of invertebrates and their habitat. For over forty years, the Society has been at the forefront of invertebrate protection worldwide, harnessing the knowledge of scientists and the enthusiasm of citizens to implement conservation programs.

The Honey Bee Health Coalition and the Pollinator Partnership are good resources.

pollinator.org

The North American Pollinator Protection Campaign is the most important project managed by the Pollinator Partnership.

The screenshot shows the top navigation bar of the NAPPC website. On the left is the circular logo for the North American Pollinator Protection Campaign, featuring a central bee surrounded by various pollinators. To the right of the logo, the text reads "North American Pollinator Protection Campaign" and "NAPPC" in a larger font. Further right, the "POLLINATOR PARTNERSHIP" logo is displayed in a yellow box. Below this is a search bar with a "Search" button. At the bottom of the header, there are language options: "English", "Para el español", and "Pour le français". A dark green navigation bar at the very bottom contains the following menu items: "Home", "About Us", "Partners", "Pollinators", "Conference", and "Task Forces".

The banner features a close-up photograph of a honeybee on a yellow flower. The text on the banner includes: "The 15th Annual NAPPC International Conference" at the top left; a blue box with the text "NAPPC FIFTEEN 2015" in white; and "hosted by the:" followed by the address "US Department of the Interior, South Interior Building, 1951 Constitution Ave., NW, Washington, DC 20240" at the bottom left.

The text box contains the following information: "NAPPC International Conference", "The 15th Annual Conference took place at the U.S. Department of the Interior on Tuesday, October 22 to Thursday, October 24, 2015.", and a link "Learn more>>". Below this, it mentions "Honey Bee Health Research" and states "The Honeybee Health Improvement Project focuses on ways to help honey bees and beekeepers.", with another "Learn more>>" link.
