Please read the following statements:

Persons with the knowledge and equipment shall accomplish the removal and transportation of the plant seed.

The ecology of the project site shall be conducive to the growth of the specific plants.

Arrangements shall be made for a suitable permanent-planting site for all the surviving plants used in the research.

Security of the project site shall be provided to prevent the theft or destruction of the plants or seeds being used in the research.

The seed or the plants are not to be sold and are not for personal use.

Written permission must be obtained from the state or federal land managing agency or from the private landowner prior to collection, and the written permission shall accompany the permit.

Please list the number and type of plant species the seed will be collected from:

<i>Number</i>	<i>Scientific Name</i>	<i>Common Name</i>

Permits are issued on a calendar year basis and must be renewed on or before December 31, of each year.

Reports to the Department of the plant seed collected, and their subsequent disposition, are due no later than January 31, of each year. Please retain a copy of this application for your records.
