Specific Disease Testing Requirements

Tuberculosis:

- For beef breed cattle, Tuberculosis testing is NOT required, unless the state of origin has a Tuberculosis Quarantine in effect.
 - In states that have a bovine tuberculosis quarantine in effect; all cattle 3 months of age and older must test negative within **60** days prior to entry into Arizona.
- Tuberculosis testing required on all dairy breed cattle greater than 3 months of age. All cattle must test negative within 60 days prior to entry.

Brucellosis:

Testing required if cattle originates from Idaho, Wyoming, Montana.

Trichomonas:

- No preentry requirements for bulls if consigned directly to an exhibition or show.
- Statement on CVI "**The bulls listed on this CVI are consigned to _____ (show or exhibition) and are not for breeding activity or sale in the state of Arizona.**"
- If a bull is intended to be sold after the show or exhibition, Trichomonas testing is required prior to entry.
