Logan Garland	ADEQ	X		Kellie Smith	AZDA/PMD	X			
Dr. (Alex) Hu, Jiahuai	UAZ		x	Kai Umeda, Retired	UAZ	X			

2. New Business:

Review of the following SLN.

Warrant Herbicide for application by air on alfalfa, corn, cotton, and sorghum

The use is to allow application by air. Because there is no air label, current use in these crops is limited in the 1080 data. Alfalfa the issue is all about timing. This use will allow another tool as growers reach use limits on alternatives and with the continued loss of the new dicamba products. Kai moved approval for 5 years, Dr. Allen seconded. Motion passed unanimously with none abstaining. There were questions about moving this onto the Section 3 label. That is one of the questions that needs to be answered if in 5 years the use is up for renewal.

Bayer has been asked to ensure the use rates over 2 quarts in Arizona are not an issue with the EPA. Jack is going to reach out to Dr. McKloskey to get an email of support.

3. Member Comments:– N/A
4. Public Comments: . N/A
