

RAW MILK IN ARIZONA**June 2, 2023**

The sale of certain raw milk and raw milk products is legal in Arizona, but the dairy must be licensed by the Department of Agriculture and meet Grade "A" standards. The Department inspects dairies to ensure good sanitation to minimize the risks with raw milk but this does not guarantee a safe product. All containers with raw milk are required to be labeled with the following statement. **"Raw milk: not pasteurized and may contain organisms injurious to your health."**

Below is a list of dairies licensed to sell Raw-For-Consumption (R4C) dairy products along with the products they're approved to sell.

If you have any questions, feel free to write to the Department at azagriculture@azda.gov.
